WEEK

Starting the planning process with creating a Gantt chart overview over the next weeks. After that I will start on user stories a Function specifications out of those. Including epics and features. Th user stories I will start thinking about the target audience for the we also start on researching a few web sites to get an overview on what for this kind of theme. Every Friday I will write a sort summery of th it went and what may have going to wrong to make it easier for me t report at the end.
